***Election/Restrictions***

1. Newly submitted claims 17-27 and 32 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These are apparatus claims and the applicant has already received an office action on method claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-27,32 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claim 28-31,33-36 rejected under 35 U.S.C. 103(a) as being unpatentable over Smith (5375846) in view of Siegesmund (5882008).

Smith teaches a method of playing a game with real-life situations (1:45-52), gathering players, determining order of play (3:28-40), players in turn are provided chance to respond to the situation (3:40-50), and other players discuss the situation and scoring the response (abstract last 5 lines).

Smith teaches all limitations except that it does not expressly teach using this method for playing a board game.

Smith however teaches possibility of the game playing methods applied to board game environments (1:25-30).

Board games are known and used for ages in promoting playing methods.

Art Unit: 3711

In order to promote a playing method and make it available to a large section of players, it would have been obvious to apply the method to a board game environment.

One of ordinary skill in art at the time the invention was made would have suggested applying the method in a board game medium for reaching large section of players.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 17-36 have been considered but are moot in view of the new ground(s) of rejection.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
